Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 1-8 and 11-17 are again rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement for the reason given in the Paper of January 15, 2004. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Applicants argue that the definitions for "invasiveness" and "migration" are set forth at page 3. However, while support is seen for the word "inhibition" in the specification (e.g. at page 3, line 5), no support is seen in the specification for the word "reducing."

In view of the amendments to the claims and applicants' arguments, the remaining earlier rejections to the claims are withdrawn.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-17 are again rejected under 35 U.S.C. 103(a) as being unpatentable over WO 99/06040 (Berry et al) for the reasons given in the Paper of January 15, 2004.

Applicants' argue that there is no motivation to select alpha lipoic acid (ALA) from the many antioxidants available. This is not persuasive. Berry discloses ALA, which would motivate one of ordinary skill to select it.

Applicants further argue that one would not expect that ALA alone would reduce cancer metastasis, since Berry discloses that cancer metastasis is "believed to be caused at least in part" by the effect of reactive oxygen species. This is not persuasive. Berry discloses (abstract) that antioxidants modulate reactive oxygen species. It would be obvious to one of ordinary skill that the antioxidant ALA would modulate reactive oxygen species, thereby reducing cancer metastasis.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
